

**CLEAN VERSION OF AMENDED CLAIMS**

Please amend claim 1 as follows:

1. (Once amended) A specialty ink-jet ink, comprising:  
an ink vehicle; and  
a sufficient amount of particulates having directionally dependent light reflective properties dispersed within the ink vehicle such that when the ink-jet ink is substantially dried on a desired substrate, a multi-colored reflected light is emittable in the presence of a light source, said specialty ink-jet ink being ink-jettable.

Please amend claim 13 as follows:

13. (Once amended) An aqueous ink-jet ink printing system, comprising:  
a specialty ink-jet ink comprising an ink vehicle having dispersed therein an effective amount of particulates, said particulates having directionally dependent light reflective properties, and wherein the ink-jet ink is ink-jettable; and  
a specialty ink-jet ink pen configured for jetting the ink-jet ink.

Please amend claim 19 as follows:

19. (Once amended) A system as in claim 13 wherein the ink-jet ink pen has a bore size from 20 microns to 200 microns in diameter.

A marked-up copy of the amended claims showing the above changes are appended hereto.

**REMARKS**

In the office action mailed December 4, 2002, claims 1-40 were pending for consideration. Specifically, the Examiner took the following actions:

- 1) a restriction requirement under 35 U.S.C. 121 was formally issued in writing;
- 2) claim 19 was objected to for containing an informality;
- 3) claims 1 and 13-17 were rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,398,131 (hereinafter "Hall");
- 4) claims 1, 8-11 and 13-16 were rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,679,138 (hereinafter "Bishop");
